Climate Code 2021
by XdHacks Mini Vancouver

A 3 day Global Environmental Hackathon for High-School Students all around the world!

About this event

Climate Code 2021: Friday August 6th - Sunday August 8th, 2021 🌳

Climate Code 2021 is a virtual Hackathon that encourages high-school students from around the world to develop solutions that will help the Environment. Within the span of 36 hours, you and your team will work together to develop functional prototypes of digital solutions aimed towards solving environmental challenges that societies encounter today. 💻 🛠️

There will be workshops, keynote presentations, interactive activities, and mentors to assist your creation along every step of the way. 🤝 Near the end, you will virtually present your prototype to a team of judges, all of whom are experienced individuals in the STEAM fields. 📗

Over $10,000 in prizes will be available for attendees.

Date: Friday Aug. 6th 7:00PM - Aug. 8th: 9AM (Pacific Time)

Schedule: times listed are subject to change

About XdHacks Mini 🌍

XdHacks Mini is a global high-school Hackathon organization dedicated towards hosting high-school Hackathons to inspire more youth to be engaged with the field of STEAM. Our events are where individuals come together and use technology to transform their ideas into reality in an attempt to create a feasible solution towards solving a relevant, real-world problem. 📣

At XdHacks Mini, one of our core values is in teaching students of the importance of interdisciplinary learning in the modern technology industry. Our focus on students developing an interdisciplinary mindset sets us apart from other Hackathon organizations. We highlight the significance of soft skills such as presenting a pitch, in tandem with hard skills

like coding. We believe entrepreneurship, in addition to having a deep foundation within a skill like coding, sets students up best for the future.

Submission Requirement 💼

Participants will be given a 5 minute timeslot to pitch their project for this online hackathon.💡 Their product should be a prototype, user interface and front end development are not necessary for submitting a successful project. 📲 Even if the program itself isn't finished, that is fine. Your submission should simply show your thinking process when tackling the theme, and illustrate how you plan to tackle the theme of Environmental Issues with the beginnings of your solution. However, this is not a case competition and we want to see some practical work/coding done!

In addition to the Pitch, attendees much provide their code in some sort of public repository for judges to view.

Prizes 🎁

Our hackathon is graciously sponsored by various organizations. Climate Code 2021 will have the following prizes for our attendees!

- First: Climate Code 2021 T-Shirt, $50 Amazon Gift Card, TBD Prize
- Second: Climate Code 2021 T-Shirt, $25 Amazon Gift Card
- Third: Climate Code 2021 T-Shirt, $15 Amazon Gift Card

All attendees will be given a gift bundle at the end, with an estimated value of $200.
